

Adult Daycare Module by SERVtracker

Create service records by outsourced provider, or as the direct service provider with the click of a few buttons in SERVtracker's Adult Daycare module. Enter a defined master schedule for your clients. Unit entry can be created based upon your clients master schedule, and/or units may be generated "on the fly" depending on your business practices. By entering a last assessment date, SERVtracker will enter a next assessment-required date, based on a pre-defined elapsed time you enter. Several reports are available for analysis and invoicing. Records can be posted on a daily, weekly or monthly basis.

Features

- Service start date, end date and end reasons are tracked.
- Define schedules for each client as to which day the client will be receiving adult day care service.
- Assign providers to the client.
- Tracking of funding source by client.
- Enter adult day care clients' unit information via 2 methods.
 1. Individually off of a sign-in sheet at end of day or "on the fly".
 2. By transferring client information from the master schedule that was created for the client.
- Report information by client, date and grant/funding source.
- Over 33 reports dedicated to Adult Day Care.

Benefits

- Access ALL client demographical and service related data, real time across departments.
- Best in class software solution developed by senior service providers for senior service providers.
- Easy and efficient operations that are streamlined based upon proven workflows.
- Increased employee satisfaction using a product streamlined to make daily tasks simple.
- Accurate and real time grant/funding source manager allows for better utilization and management of resources.
- Scalability of product supports single system users as well as complex networks.
- Increased productivity frees resources to be applied where needed, helping seniors.
